

Aural Skills

Self-assessment February 2021

Bass Clef Version

You are going to score yourself on how well you are able to sight sing the examples on the next page.

1 = I feel very uncertain,

3 = Pretty sure I got most of it right

5 = Absolutely sure I nailed it.

Someone at home might be able to help you score yourself. Remember you want to be in the class that best suits your abilities so please be honest with yourself. It is much better to begin at a lower level and consolidate your skills than to select a course where you might struggle to keep up.

Select your class based on your score:

Score 15 - 20 select level 7-8

Score 10 – 15 select level 5-6

Score 5 - 10 select level 3-4

Score 1 – 5 select level 1-2
